Drawing Standards for Plan/Work Applications Checklist of

The U.S. Access Board is a federal agency that promotes equality for people with disabilities through leadership in accessible design and the development of accessibility guidelines and standards for the built environment, transportation, communication, medical diagnostic equipment, and information technology.

Home - United States Access Board

Computer-aided architectural design (CAAD) software programs are the repository of accurate and comprehensive records of buildings and are used by architects and architectural companies. The first program [which?] was installed back in the 1960s, to help architects save time instead of drawing their blueprints. Computer-aided design also known as CAD was originally the type of program that ...

The Architecture Library is a section of Howard-Tilton Memorial Library's Access Services department, and houses the standard reference materials in architecture, monographs on contemporary architecture and historically eminent architects, as well as works on architectural theory, urban planning, environmental design, sustainability, historic preservation, building technologies and graphic ...

Libraries & Departments | Howard-Tilton Memorial Library

Architecture is both the process and the product of planning, designing, and constructing buildings or any other structures. Architectural works, in the material form of buildings, are often perceived as cultural symbols and as works of art. Historical civilizations are often identified with their surviving architectural achievements.
