

humanity end why we pdf

In futures studies, human extinction is the hypothetical end of the human species. This may result from natural causes or it may be the result of human action.. The likelihood of human extinction in future by wholly natural scenarios, such as a meteorite impact or large-scale volcanism, is generally considered to be extremely low.. For anthropogenic extinction, many possible scenarios have been ...

Where Can I Buy Cards Against Humanity? (for \$25 or less

As a result, if humanity continues on its current trajectory, it will likely be unable to meet the needs of a world population that is expected to reach at least nine billion by 2050. 5 As human biophysical pressures rise, threatening the stability of the planet, our understanding of development must transcend the current paradigm. We must urgently address the twin challenges of shrinking the ...
