Introduction to Computing

This book is dedicated to: My wife who first encouraged me to teach this class and then put up with my spending countless hours on this book and also helped with numerous comments on the first

Introduction to Arduino

Introduction to Computer Programming If you understood what a computer program is, then we will say: the act of writing computer programs is called computer programming. As we mentioned earlier, there are hundreds of programming languages, which can be used to write computer programs and following are a few of them:

About the Tutorial

Object-oriented programming is our introduction to data abstraction. We emphasize the concepts of a data type (a set of values and a set of operations on them) and an object (an entity that holds a data-type value) and their implementation using Java's class mechanism.
