Advisory U.S. Department Circular

The Minnesota Department of Transportation provides its home page with links to its regional offices, bid letting, construction, future highway plans, hot topics, jobs, library, licensing information, map sales, news, public meetings, research, road & travel information, and related links.

Pavement Design & Information

“Perpetual Pavement” is a term used to describe a long-lasting structural design, construction and maintenance concept for HMA pavements. If properly maintained and rehabilitated, a perpetual pavement can be designed and built to last longer than 50 years without requiring major structural rehabilitation or reconstruction, and needing only periodic surface renewal in response to ...

AASHTO Pavement Thickness Design Guide When designing pavement thickness for flexible and rigid pavements, the following considerations

AASHTO Pavement Thickness Design Guide - CECALC.com

Flexible electronics, also known as flex circuits, is a technology for assembling electronic circuits by mounting electronic devices on flexible plastic substrates, such as polyimide, PEEK or transparent conductive polyester film. Additionally, flex circuits can be screen printed silver circuits on polyester. Flexible electronic assemblies may be manufactured using identical components used for ...

Flexible electronics - Wikipedia

Pavement roughness is generally defined as an expression of irregularities in the pavement surface that adversely affect the ride quality of a vehicle (and thus the user). Roughness is an important pavement characteristic because it affects not only ride quality but also vehicle delay costs, fuel consumption and maintenance costs. The World Bank found road roughness to be a primary factor in ...

Roughness - Pavement Interactive

Pavement engineering is a branch of civil engineering that uses engineering techniques to design and maintain flexible and rigid pavements. This includes streets and highways and involves knowledge of soils, hydraulics, and material properties. Pavement engineering involves new construction as well as rehabilitation

and maintenance of existing pavements.
