self injury disorder now pdf

Self-harm, also known as self-injury, is defined as the intentional, direct injuring of body tissue, done without suicidal intentions. Other terms such as cutting and self-mutilation have been used for any self-harming behavior regardless of suicidal intent. The most common form of self-harm is using a sharp object to cut one's skin. Other forms include behaviour such as burning, scratching ...

Self-harm - Wikipedia

Self-injury, also known as self-harm, self-mutilation, or self-abuse occurs when someone intentionally and repeatedly harms herself/himself in a way that is impulsive and not intended to be lethal.

Self Harm - Self Mutilation - Self Injury

What is self-injury? Nonsuicidal self-injury (NSSI) is the deliberate, self-inflicted destruction of body tissue resulting in immediate damage, without suicidal intent and for purposes not culturally sanctioned. Self-injury can include a variety of behaviors but is most commonly associated with: intentional carving or cutting of the skin

Self-hatred (also called self loathing) refers to an extreme dislike or hatred of oneself, or being angry at or even prejudiced against oneself. The term is also used to designate a dislike or hatred of a group, family, social class, or stereotype to which one belongs and/or has. For instance, "ethnic self-hatred" is the extreme dislike of one's ethnic group or cultural classification.
