The history of agriculture records the domestication of plants and animals and the development and dissemination of techniques for raising them productively. Agriculture began independently in different parts of the globe, and included a diverse range of taxa. At least eleven separate regions of the Old and New World were involved as independent centers of origin.

History of agriculture - Wikipedia

The history of the world is about the study of the cultural achievements of the entire human race. This includes the time from prehistory to the end of the 20th century and excludes natural history before the development of human beings

History Origin of the term. The term Brumby refers to a feral horse in Australia. The first recorded use in print in 1871 has the connotation of an inferior or worthless animal, and culling of feral horses as a pest soon became known as Brumby shooting. The Australasian magazine from Melbourne in 1880 said that Brumbies were the bush name in Queensland for 'wild' horses.
