## **Architecture Definitions - Bredemeyer**

Preamble. How we approach architecture, defines what architecture, in effect, is, at least for our system. That is, no matter what we say architecture is (for), architecture is (an outcome of) what we do. This is a POSIWID (the purpose of a thing is what it does -- Stafford Beer) kind of point, noting that what the thing does, trumps what we may think it is and ought to do.

Software documentation is written text or illustration that accompanies computer software or is embedded in the source code. It either explains how it operates or how to use it, and may mean different things to people in different roles. Documentation is an important part of software engineering. Types of documentation include:
